ABOUT ME

Motivated B.Tech Computer Science student with a strong foundation in MERN stack development and a passion for building modern web applications. Skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB with a keen interest in software development and problem-solving. A quick learner and self-motivated developer who enjoys exploring new technologies and creating efficient, user-friendly solutions.

EDUCATION

Government Engineering College, Ambikapur (CSVТУ) | 2023 – 2026

Bachelor of Technology in Computer Science & Engineering

Focused on core computer science subjects including Data Structures, Algorithms, Database Management Systems, and Web Development.

Government Polytechnic Kabirdham (CSVТУ) | 2020 - 2023

Diploma in Computer Science & Engineering (Honors)

CPI: 9.16 / 10 | Percentage: 84.1%

Graduated with strong academic performance and foundation in programming and computer science concepts.

PROJECTS

AI-Driven Image-Based Recipe Generation System

- Developed an AI-powered web application that generates recipes from uploaded food images; improved recipe discovery efficiency by 70%
- Designed a responsive user interface for image upload and recipe display; enhanced user interaction by 60%

YouTube Audio & Video Downloader using Python

- Built a Python-based GUI application to download YouTube audio and video files with format selection; reduced manual download time by 80%
- Implemented a simple desktop interface for URL input and media download; improved usability by 65%
